

Your Important Topic	Mapped Resource PDF (Read these!)	Content Coverage Check
Agronomy & Field Crops	Introduction to Agriculture	Basics, branches, scope.
	Classification of Crops	Crop types based on season, utility, etc.
	Important Crops	Production package of practices for major crops.
	Weeds & Their Classification	Essential part of Field Crops/Agronomy.
Farming Systems	Cropping System	Covers rotation, multiple, inter-cropping, etc.
	Farming Systems	This is the direct match (often includes Mixed Farming).
	Crop Intensification	Covers techniques like SCI (System of Crop Intensification).
	Organic Farming	An important component of modern farming systems.
Soil & Water Conservation	Types of Soil & Their Physical Properties (Part 1)	Soil types, formation, and properties.
	Chemical & Biological Properties of Soil	Fertility, organisms, and nutrients.
	Soil Fertility and Mineral Nutrition	Essential plant nutrients, deficiency symptoms.
	Manure, Fertilisers & Bio-fertilisers	Nutrient management, highly important.
	Soil Erosion & Conservation	Direct match: Erosion types, conservation methods.
	Watershed Management	Direct match: Concept, components, development.
Plantation & Horticulture Crops	Plantation & Horticulture	Definition, branches, general practices.
	Important Fruits, Vegetables & Flowers	Production technology for major crops (Pomology, Olericulture, Floriculture).
	Agro-processing	Post-harvest management of horticultural crops.
Animal Husbandry & Poultry	Animal Husbandry	Role in economy, terms, breeds, feeding.
	Animal Breeding	Breeding systems and practices.
	Poultry	Poultry management, breeds, and industry status.
Fisheries	Fisheries (Updated)	Direct match: Resources (fresh, brackish, marine), Aquaculture, Post-harvest technology.
Forestry	Forestry	Basic concepts, Silviculture, Management.
	Forest Laws	Important for policy/legal aspects.
	Ecology and Climate Change–1	Concepts like Agroforestry and Social Forestry often overlap here.
Agriculture Extension	Agriculture Extension	Direct match: Role, methods, evaluation, KVKs (Krishi Vigyan Kendras).
Irrigation	Irrigation System	Direct match: Types, sources, water-use efficiency, micro-irrigation.
	Water Harvesting	Includes water conservation structures and techniques.
Seeds and Sowing	Seed Production, Seed Processing, Seed Village	Direct match: Seed types, certification, quality.
